Outstanding Service and Project Recognition

Dear Emin,

Just wanted to say a big THANK YOU! For all the work on the system to date.

We've been working on it for over a year and we're really delighted at how it is going so far, having just started to use it live last week.

There are bugs etc, but we are all very impressed!

So, thanks again Jamil and Emin and Igor for the brilliant work, we love the system.
There is plenty more work to do so hopefully we can continue to bring positive changes to the business.

Regards,

Deirdre Connolly
